Making Changes to Your Previous Final Summary Reports

- If the SAM decides to return the application, the status will change to “Returned by SAM” and you will receive an email informing you of the status change. From the evaluation screen, you may click on the “Returned by SAM” link to view the message indicating why the application was returned. This is a direct message to you from the SAM. **(Pages 30 and 31)**
- The next step is to make the changes the SAM requested. You can make the edits to the comments yourself or return the evaluation to the reviewers so that they can make the changes (such as adding more comments or editing scores). When all of the changes the SAM requested have been made, you will then need to re-submit the application to the SAM. **(Page 32)**
- When the PAM approves the application, the status will change to “Approved”. You are nearly complete with the process. You will then again click on the hyperlinked application name to access the Application Evaluation Screen. Click on the “View Report” button to open the Final Summary Report. Confirm that the report is from the approved application by making sure that a blank signature line appears with your name beneath it. You should also see a line for you to date your score report.
